

Art and Crafts

Art is the expression of ideas and emotions through a physical medium, like painting, sculpture, film, dance, writing, photography, or theatre.

Crafting includes a variety of art forms, from sculpture and metal work to knitting and printing. These crafts can all be divided into five basic types based on their form and purpose: textile, decorative, paper, functional, and fashion crafts. The definition of art has generally fallen into three categories: representation, expression, and form.

The major difference between art and crafts is that crafts are something you can easily reproduce, while arts are more unique and cannot be duplicated.
